

Hive Govern for Partners & MSPs

Advanced Governance & Compliance Solution

- Role-based management
- Permission delegation
- Bulk operations
- One-click access to ACLs
- Custom attributes

Product Overview

Hive Govern is a next-generation governance platform for IT providers and MSPs managing NetDocuments. Designed for advanced permission auditing, policy enforcement, and automated compliance, **Govern** helps protect client data, reduce risk, and deliver premium managed services.

Key Features

- Advanced Permissions:** Granular access control, role management, and bulk ACL operations.
- Audit & Compliance:** Full audit trails, automated reporting, and regulatory compliance.
- Advanced Search:** Powerful search, bulk actions, and actionable data insights.
- Multi-Client Management:** Manage all clients from a single portal—scaling with your business.
- Seamless Integration:** No additional hardware required; works with NetDocuments cloud environments.
- For Partners, MSPs & In-House IT:** Built to support client management, recurring revenue, and operational efficiency.

Why Choose Govern?

- Expand service offerings:** Deliver premium governance and compliance-as-a-service to every client.
- Build recurring revenue:** With ongoing advisory, monitoring, and compliance contracts.
- Operational efficiency:** Automate audits, reviews, and reporting to free up your team for high-value work.

Use Cases

- Bulk update** permissions and ACLs across multiple clients
- Run permission audits** and generate compliance reports
- Enforce security** and governance policies automatically
- Grant role-based access**—only what's needed for each client
- Search and report** across all client environments
- Manage all clients** from a single portal
- Automate onboarding** and offboarding for users

How Partners Win with Govern

Expand Service Offerings

Deliver premium governance and compliance-as-a-service to every client.

Recurring Revenue

Build ongoing advisory, monitoring, and compliance into your contracts.

Multi-Client Management

Manage all clients from a single portal—scaling with your business.

Co-Branded Experience

Deliver services under your brand with co-branded or white-labeled access (higher tiers).

Operational Efficiency

Automate audits, reviews, and reporting—free up your team for high-value work.

Client Stickiness

Become your clients' trusted advisor—drive retention with visible security and compliance value.

Fast Onboarding

Guided partner training to get you started quickly

Dedicated Support

Partner support and enablement resources

"Hive Govern helps us offer a whole new level of compliance support for our clients, and honestly, it saves us hours every month. We get real-time visibility into permission changes and potential risks, so we're not constantly playing catch-up. It's made our job easier and our clients feel more secure."
